Sunday Morning, February, 11, 2,018

In the tabernacle of Puerto Lempira.

Teaching of the Word, on the subject: communion and foot washing, because the people has been asking us, when? we will practice the communion with them.

In puerto lempira according to bro. Blackhouse and for what I have been seing, The Lord have a nice group of people, like thirty eight people.

But, because they got to go up to the mountaine for work, we never see them together.

But we always have a nice group of visitors, who come to hear the message.

Sunday evening, at 5 pm.

We did have communion and foot washing.

12 of the believers were able to participated in it, checking their life with the Word. And they experience a very solemn acts, because they have participated of the communion in the denominational churches and every body in church took it even wordly people, and beside that, they use culey drink and salty biscuit, but we used grape wine and bread without yeast. I was very happy to see what the Lord it's doing in Puerto Lempira, COUPLES GETTING MARRIED, PEOPLE GETTING BAPTIZED, AND TAKING COMMUNION. The Lord it is breaking the catholics and denominational chains in the jungle, to liberate his own children.
